St. Aloysius Girls School, Uganda

May 22, 2020

## A message from Sr. Immaculate. . . .

*I warmly greet you and I am grateful to God for His continuous providence. Your very appreciated donations from St. Mary by the Sea have been deposited to our school account.*

*I tell you what . . . as we were weeding the maize the other day, I encountered a snake as I was tilling the soil! I was so scared because I have a great fear of snakes. I ran and I fell but I was not hurt, although I was embarrassed! My girls felt so bad. Some of the girls don't fear snakes (although they fear caterpillars which I don't fear). We continued working as they were not so scared.*

*Thank you to all our friends for the generous support. We are forever grateful and pray daily for you during these scary times we hear about in your country with the coronavirus.*

*.....Sister Immaculate*

## A message from the Uganda Team . . . .

Sister says that the Ugandan government has informed all schools to plan to have 10th through 12th graders to return **June 1st** with social distancing practiced at all times. Sister has been planning for this and will be spreading the girls out using the junior high dorm and classrooms. She has not heard any information yet about the 7th thru 9th graders.

Thankfully, due to our donations, she will have plenty of food for the girls and money to pay the staff salaries. She is anticipating that most girls will come with very little tuition money, and parents will be begging her to please take their girls anyway. Thanks to all of you, she won't have to make those terrible choices!

**YOU have helped to make the lives of these girls better through supporting their education! Thank you!**

*"We all work our fields every weekday morning!"*

*"The rains have been great this season. Our maize is tall."*

*Thank you, friends, for your support of St. Aloysius during this very difficult time!*

*You are making a difference in the world!*

**Weebale!**

*"Purchasing beans with some of our contributions from you!"*
