

Covid-19 News Bulletin

St. Aloysius Girls School, Uganda

From the Team , October 23, 2021

A heartfelt and loud shout out to all our donors! Thank you! We have recently received so many generous donations from so many of you! I called Sr. Immaculate to tell her about all the financial help she would be receiving from her donors. She was all choked up, so happy, and so grateful that she would have so much help to open up St. Aloysius. She will be able to offer many scholarships to help the students who will be coming back to school in January. From her experience last year, she knows that most of her students will be arriving back to school hungry and with very little money or school supplies. Thank you for your generosity!

She will be able to offer many scholarships to help the students who will be coming back to school in January

Remember that our method of wiring money to the St. Aloysius account usually takes a month to six weeks, but every dime we have sent through the years has been received by Sister in her school account! We keep very accurate track of the money sent and make sure it is received.

Thank you again to all our monthly donors who have been giving for many years now, and thank you to those who surprise us with unexpected checks!!!

A couple days ago I heard from a student that we met when we were in Uganda who became a "pen pal" to my granddaughter. Maltina lives in Kampala with her family. She is now in her second year of college and has been doing all her classes on her smart phone as she has no computer. She admitted that it's been very difficult to keep up but she loves the university classes even online. She is determined to get a degree. Maltina was sponsored by St. Mary by the Sea with a partial scholarship when she attended St. Aloysius. She is a great success story!

Maltina said that she and her family all just got the free Johnson and Johnson vaccine. She said to say, "Thank you to America for the free vaccine!" The vaccine is now available to all in Kampala, but she has heard it's still hard to find in the countryside. Universities in Uganda will be starting up in person November 1st and everyone must have the vaccine to go back to all career schools and universities. Remember that St. Aloysius as well as other secondary schools in Uganda start back in January following the six month lockdown!

Thank you for, so generously, supporting girls' education in Uganda! Weebale!!

Maltina then and now!
